

**How the world will
look like fifty years?**

Robots

A close-up shot of a female humanoid robot with short brown hair, looking slightly to the right. She has a glowing blue circular sensor on her forehead. She is wearing a dark blue uniform with a white collar. The background is a blurred indoor setting.

- Some jobs will be replaced by robots
- Robots will help people with basic things

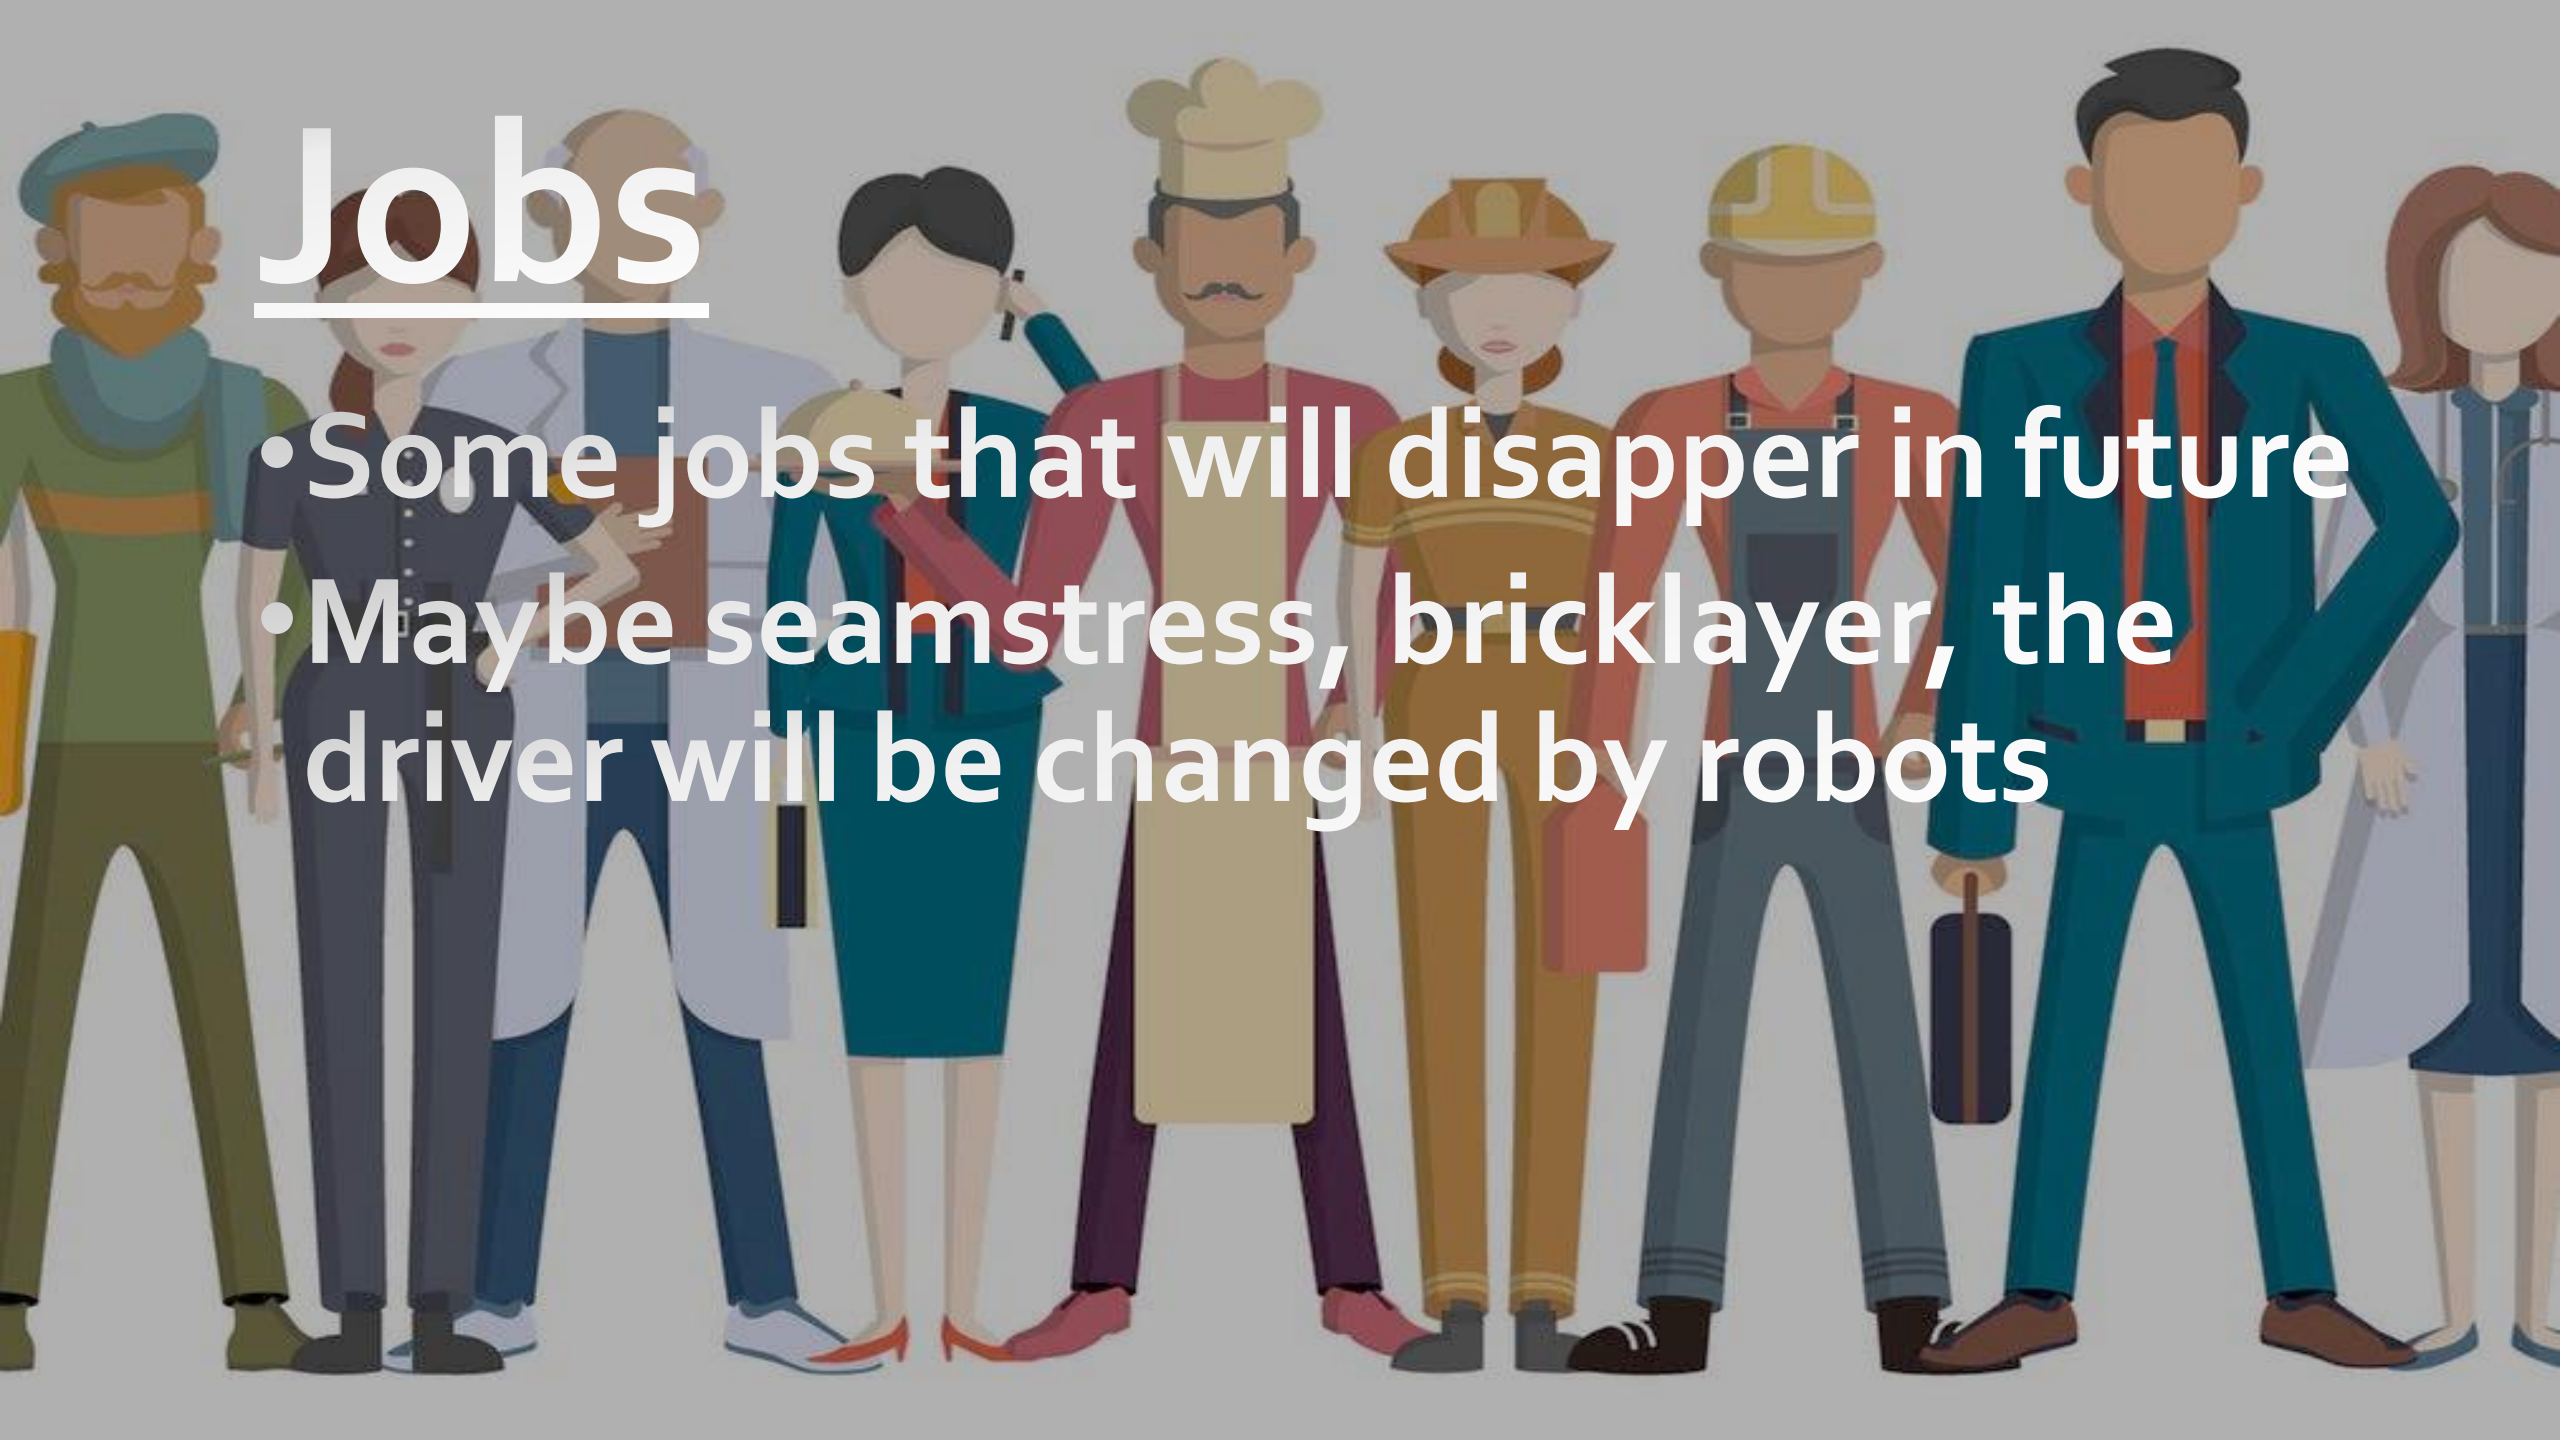

Style

- In my opinion, the style of clothing and home will change
- he will wear more revealing clothes
- Houses will be more modern, but maybe smaller

And in the house will be more modern appliances and robots

Jobs

- Some jobs that will disappear in future
- Maybe seamstress, bricklayer, the driver will be changed by robots

Hyperloop

A futuristic hyperloop train is shown in a tunnel. The train is sleek and aerodynamic, with a white and blue color scheme. It is moving through a long, straight tunnel with a curved ceiling. The background shows a landscape with hills and a bridge.

- Hyperloop is concept of fast transpotation
- Its like subway but is much faster
- Hyperloop is desinged by Elon Musk

**Thank you for
listening**
